Why should I earn the CPIM?

The pandemic caused a major shift in consumer demand and put a spotlight on supply chain vulnerabilities. This makes planning more important than ever, and the CPIM program gives you the tools and skills to address these challenges.

Earning the APICS CPIM demonstrates mastery of an organization's internal operations and an in-depth understanding of materials management, master scheduling, forecasting, production planning and how it applies across the extended supply chain.

After earning your CPIM you will be able to:

- Increase inventory accuracy and reduce inventory
- Improve forecasting
- Improve the S&OP process
- Manage and apply capacity resource planning
- Work more productively with your company's ERP system

What will I study?

The CPIM Learning System content is divided in to 14 modules across two parts. The concepts and best practices you learn will help you elevate your job performance, drive improvement in the efficiency of planning and operations, and make a positive impact on your organization's overall bottom line.

Module 1: Supply Chain and Strategy

Module 2: Sales and Operations Planning

Module 3: Demand

Module 4: Supply

Module 5: Detailed Schedules

Module 6: Inventory

Module 7: Distribution

Module 8: Quality, Technology and Continuous Improvement
